1.03 Professional growth cycle for teachers

Rationale

- The Professional Growth Cycle (PGC) is the learning-focused process that has replaced performance appraisal for the purposes of determining whether teachers meet the Standards for the Teaching Profession | Ngā Paerewa mō te Umanga Whakaakoranga. Using the elements as a guideline teachers can develop a PGC that works for them in their setting. The elements are intended to structure the growth cycle, while leaving room to craft a process that is authentic to the professional learning focus. The design of the PGC centrally positions the distinctive contexts of learning environments, and as such, allows meaningful growth to occur for teachers.

Purpose

The PGC demonstrates trust in the profession to meet the high expectations they set for themselves. This would be done by removing unproductive compliance activities, reducing workload and enabling a focus on professional growth whilst upholding the legal obligation to ensure that everyone holding a practising certificate meets the Standards | Ngā Paerewa. It focuses on the professional aspects of these roles. The PGC should enable teachers to focus on their growth and support them to effectively undertake the complexity of their role in their unique setting.

Guidelines

- Principals and professional leaders will facilitate a common understanding of the Standards/ Ngā Paerewa in their own context and what meeting and using them in their practice looks like (Not annually but once in place revisit from time to time and with new teachers to the setting).
- Principals and professional leaders will design with teachers an annual cycle of professional growth in their setting, using the Standards/ Ngā Paerewa and support teachers to engage in it, fostering an environment for inclusive, collaborative teacher learning.
- Every teacher will engage in professional learning using the Standards/ Ngā Paerewa to advance their understanding of the relationship between their professional practice and outcomes for learners.
- Every teacher will be given the opportunity to discuss and receive feedback on their practice including observation, particularly for teachers holding Tōmua practising certificates (provisionally certificated teachers).
- Principals and professional leaders will confirm annually that each teacher has participated in the annual cycle and will also provide a statement to the teacher about whether they meet (Tūturu: Full Practising Certificate) or likely to meet (Pūmau: Subject to Confirmation) the Standards/ Ngā Paerewa (but with no requirement to create evidential documents).
- If in the Principal or professional leader's judgment the teacher does not currently meet the Standards/ Ngā Paerewa, they will discuss that with the teacher and provide support to enable improvement and if sufficient progress is not made, they may commence formal performance management processes outlined in employment agreements. Note that in these situations the Council's registration and certification policy will set out the expectations for the endorsement of a practising certificate renewal.

1.03a Principal professional growth cycle

Rationale

The Professional Growth Cycle (PGC) is the learning-focused process that has replaced performance appraisal for the purposes of determining whether principals, tumuaki, teachers, kaiako and early childhood education (ECE) professional leaders meet the Standards for the Teaching Profession | Ngā Paerewa mō te Umanga Whakaakoranga.

Using the elements as a guideline, principals, tumuaki and ECE professional leaders can develop a PGC that works for them in their setting. The elements are intended to structure the growth cycle, while leaving room to craft a process that is authentic to the professional learning focus. The design of the PGC centrally positions the distinctive contexts of learning environments, and as such, allows meaningful growth to occur for principals, tumuaki and ECE professional leaders.

Purpose

The PGC demonstrates trust in the profession to meet the high expectations they set for themselves. This would be done by removing unproductive compliance activities, reducing workload and enabling a focus on professional growth whilst upholding the legal obligation to ensure that everyone holding a practising certificate meets the Standards | Ngā Paerewa. It focuses on the professional aspects of these roles. The PGC should enable principals, tumuaki and ECE professional leaders to focus on their growth and support them to effectively undertake the complexity of their role in their unique setting.

Guidelines

- The principal plans the PGC. As part of the design, it is expected that the endorser would be identified.
- This PGC plan should be shared with the board chair so that they can understand and be effectively involved in planning the support needed for the PGC. It should enable the principal to focus on their growth as leader of learning to effectively undertake the complexity of that role.
- In the development phase of the PGC, other professionals (peers of the principal from other settings) who can support the learning within the cycle should be identified.
- The principal is strongly encouraged to participate within a learning network of peers (locally or using distance technologies). These networks may already exist or could be created specifically for the PGC in the interests of improved professional practices and enhanced outcomes for learners.
- An endorser must hold a Tūturu Full (Category One) practising certificate and is expected to come from within the network that is used as part of the PGC. It is expected that the decision as to who will be the endorser will be made by the principal with the board chair.
- The PGC recognises that professional learning comes from formal and informal experiences with learners, teacher colleagues and others. Decisions about the kinds of professional learning experiences engaged in that are additional to the PGC will be made when the principal plans with the presiding board member the support they receive for their learning.

1.06 Equal employment opportunities

Rationale

1.10 Police vetting policy

Rationale

The Education Standards Act (2001) and Children's Act (2014) require the school to police vet all non-teaching staff, and contractors with unsupervised access to students, who work at the school on a regular basis during school hours. Also a condition of being a signatory to The Code Of Practice For Pastoral Care Of International Students requires the school to conduct a police vet of household members in homestay homes over the age of 18. Privacy issues are a key component of this policy.

Purposes

To comply with all relevant legislation.

To ensure strict confidentiality is observed with all police-vetting information.

To assist the principal to appoint high quality, responsible staff.

To reduce the chance of students and staff being exposed to unacceptable risk by employees at the school/homestay carers.

Guidelines

Non-teaching staff/contractors

Non-teaching staff will be appointed subject to a "satisfactory police vet".

Information on the vetting process and a police vet application form will be provided at the time of their "temporary" appointment.

On receipt of a satisfactory police vet, those who have been employed on a temporary basis will be confirmed as a permanent employee.

Contractors who regularly work at the school during school hours with unsupervised access to students will be required to undergo a police vet.

The applications for police vets for non-teaching staff and contractors will be submitted via the NZ police electronic vetting services.

All existing non-teaching staff and eligible contractors will undergo police vetting processes as indicated to be best practice by the Ministry of Education.

Homestay carers

Any person over the age of 18 who lives in a household that wishes to be considered as a homestay for international students must undergo a police vet.

The school's homestay coordinator will provide the necessary documentation for the police vet prior to any family being accepted as homestay carers.

The police vet will be submitted via the NZ police electronic vetting services the principal will inform the homestay coordinator of the status of the vet and whether a family will be accepted as homestay carers.

Privacy and procedural issues (apply for all police vets carried out for the school)

The principal, as the school's privacy officer, will receive all completed police vets.

The principal will ensure accurate records are maintained on police vets carried out – including results, dates, any actions taken.

Negative police vets – those that indicate criminal offending by the applicant – will be considered by the principal and/or board chairperson who will decide whether to offer a job permanently/agree to allow as a homestay carer or not. The decision will be based on factors such as the nature of the offending, when the offending took place and the likelihood of further offending.

Once a decision has been made, the police vet report will be securely destroyed.

2.CURRICULUM

2.01 The curriculum

Rationale

The Curriculum is the programme offered by the school and includes all organised activities whether in or out of the classroom. Accordingly the school will aim to provide its students with a balanced curriculum that meets both nationally set requirements and local needs. This curriculum will be constantly under review to ensure it reflects the changing needs of students, their interests and staff resources. Staff and students will be encouraged to be involved in activities outside the classroom as the enjoyment and relationships coming from such activities have beneficial effects on the creation and maintenance of a positive, pleasurable and supportive school environment conducive to improving educational achievement.

Purposes

To ensure that the curriculum offered by the school complies with the National Education Goals, the National Curriculum statements and the National Administration Guidelines.

To ensure that the school community is well informed of the school's curriculum.

Guidelines

The senior leadership team has the responsibility for maintaining, reviewing and developing curriculum policy in the school. Staff will be well consulted in the process of curriculum review and development.

After appropriate consultation and observance of national requirements the principal will prepare a Curriculum Statement for the following school year. The Curriculum Statement will include a list of subjects and the structure of the curriculum and will be presented to the board before the end of term 3.

The Curriculum Statement will be published for student and parent information in the annual school prospectus.

Curriculum guides for all year levels that provide detail on all courses offered in the school will be published for student use prior to them making their subject choices in term 3.

The teaching time allocated to each subject will be defined and provide the basis for the next year's timetable as well as for the weekly division of school time.

HOLA's have the responsibility to develop schemes of work for each of their curriculum areas. Schemes of work are working documents that provide a framework for how the NZ Curriculum is offered in each course and are constantly under review.

Subject teachers have the responsibility to follow the relevant schemes of work for each of their classes and to plan units of work that are aligned to the scheme.

The board, through the principal, will encourage participation by staff and students in a diverse range of co-curricular activities.

Chairperson

Date approved: 9 May 2023

2.02 Assessment policy

Rationale

Assessment is an integral part of the teaching and learning programme. Its main purpose is to improve teaching and learning by identifying learning strengths and weaknesses, measuring students' progress against curriculum levels and the learning objectives in units of work, and reviewing the effectiveness of teaching programmes. Diagnostic assessment will identify specific learning needs and barriers to learning and achievement. Assessment may be formal or informal.

The school requires learning areas to set clear learning objectives at each year level, based on curriculum documents, and to assess the achievements of students in a regular, timely and valid fashion. Data collected from assessment tasks will be recorded. It will also contribute to the monitoring of student progress and will provide the basis of reporting to students and parents.

Each learning area will have in place procedures for collating, recording and storing relevant data for all students and, where necessary, storing student work. Each learning area will follow required protocols for internal and external moderation of NZQA tasks and student work.

Purposes

To promote a consistent approach to assessment across all subjects and levels.

To ensure that assessment of students' work complies with the NELPS, National Curriculum statements, NZQA requirements and relevant schemes of work.

Guidelines

The senior leadership team has the responsibility for maintaining, reviewing and developing assessment policy in the school. One member of the team shall be appointed as the NZQA principal's nominee.

Each year the NZQA principal's nominee will coordinate school wide NCEA matters, including the management of the school's NCEA Student Assessment Handbook that is provided to all NCEA candidates in the school.

On starting an NCEA course all students are to receive an assessment statement from their teachers that details how and when their work will be assessed throughout the course of study.

Teachers will use a range of assessment strategies to fit a range of assessment purposes.

Assessment will be fair, valid and consistent. It should be ongoing and as accurate, objective and appropriate as possible.

Evidence will form the basis for objective reporting on student progress and attainment.

HOLAs are responsible for overseeing the preparation of assessment tasks and for NZQA requirements for their learning areas. Assessment statements are to be included in schemes of work.

All grades are entered onto KAMAR (SMS) in a timely fashion.

Confirmation and extension of NZQA consent to assess is the responsibility of the senior leadership team, in particular the principal's nominee should keep the team informed of requirements.

Progress of year 9 and 10 students will be described as curriculum levels and standardised tests such as asTTle. The asTTle is the preferred diagnostic assessment tool.

2.03 Reporting on student progress

Purposes

To provide parents/guardians with regular opportunities to be acquainted with the progress being made by their children.

Guidelines

Throughout the school year, parents will have access to real-time achievement and progress information via our online parent portal in KAMAR. Teachers enter results and comments as units of work are completed. The school will schedule other engagement meetings (Welcome interviews, etc) as appropriate each school year.

Parents will be able to make appointments to see individual teachers regarding achievement and progress at any time throughout the year.

2.06 Digital citizenship

Rationale

Papatoetoe High School supports a Digital Citizenship model for the promotion of safe and responsible use of technology.

The board recognises that by fostering a culture of successful digital citizenship in our students, staff and our wider community we are encouraging everyone to take responsibility for themselves and others in their use of Digital Technologies. This allows us to harness the potential that technology brings to the teaching and learning process, while minimising and learning to effectively respond to the challenges we may experience while using them in a learning context.

The board is aware that preparing our students to make effective use of Digital Technologies is an important part of their preparation for participation and contribution in society today and into the future.

It is our belief that we must prepare our students to actively participate in the world in which they live. A key skill in this new world, will be learners ability to participate as effective digital citizens. An important part of learning these skills is being given the chance to experience the opportunities, and the challenges presented by technology in a safe, secure, and nurturing environment, where clear, effective guidance can be sought as students and teachers learn.

The board recognises that its obligations under the National Education Learning Priorities extend to the use of digital technologies.

Policy

Papatoetoe High School will develop and maintain procedures around the safe and responsible use of digital technologies.. These internet safety procedures will recognise the value of the technology and encourage its use in a teaching and learning context, while helping to minimise and manage the challenges that may be experienced by students, teachers and the wider school community.

The school will consult with parents and the wider school community, as to how it intends to use digital technologies and where possible explain how it benefits the teaching and learning process.

These procedures will aim to not only maintain a safe school environment, but also aim to address the need of students and other members of the school community to receive education about the safe and responsible use of digital technologies.

2.07 Education support for students with special needs

Rationale

Students with special needs have the right to attend their local school and receive equitable educational opportunities which will enable them to reach their full potential as individuals. This school will recognise, respect and respond to the diverse needs of all students within the context of the New Zealand Curriculum Framework. Our school has three main units that cater for students with special education needs; the Richards Centre for students, English language support unit for English language learners who have ongoing resourcing scheme funding, and the Te Whare Manakitanga, Learning Support Centre for mainstream literacy and numeracy support. Gifted and talented students are also identified and supported.

Purposes

This school is committed to providing inclusive programmes to support children with special education needs. This will be achieved through moderation of programmes, by adapting methods of instruction and/or equipment so students can access the curriculum and developing a positive social and emotional environment throughout the school.

Guidelines

A range of approaches, both formal and informal, will be used to identify students with special education needs such as: , specialists' reports, enrolment information, appropriate standardised testing, individual literacy assessments, teacher referral, monitoring by staff and specialists and discussion with parents/caregivers.

Education support programmes will be developed for individuals through such mechanisms as individual education plans (IEPs), small group planning and consultation with those involved with the student.

Individual programmes for students with special education needs will be delivered both within the regular classroom setting and in small groups.

Education support programmes will be funded from a variety of sources including the Ongoing Resourcing Scheme (ORS), the Special Education Grant (SEG), Targeted Funding for English Speakers of Other Languages (TESOL) and supplemented by other monies where appropriate, such as the Operations Grant.

External agencies will be utilised to enable students to access the curriculum. Agencies will vary based on the need(s) of the child concerned.

A GATE programme run by an appointed staff member.

OUTCOMES

Students with special education needs and their families will feel welcome at this school. Students with special educational needs will be included and catered for within the regular classroom setting, as well as in special programmes, as decided at each IEP meeting. Available funding for students with special education needs will be effectively managed and accounted for.

2.08 Timetable policy

Rationale

A school timetable is developed annually to reflect how the school offers the curriculum, the learning needs and academic pathways of students and available staffing resources. The secondary teachers' collective agreement (STCA) sets out requirements for non-contact hours and average class sizes that are to be incorporated into the timetabling process.

Purposes

- To ensure the needs of students is the first and key priority in timetable development.
- To ensure fairness and transparency in the timetable process.
- To comply with the conditions of the STCA.

Guidelines

- The principal determines the allocation of staffing for the school annually using the GMFS (guaranteed minimum formula staffing) and any board staffing contribution as a basis.
- The principal determines the number of classes that will operate at each level and in each subject using student enrolment data and subject choice information gathered from students.
- HoLAs, in consultation with their staff, other HoLAs and the senior leadership team, allocate classes to staff.
- A timetable team constructs a timetable in readiness for the start of the new year that meets the needs of the school and is based on the allocations made by HoLAs and the principal.
- The timetable team consults with HoLAs and the principal should changes have to be made with allocations originally given.
- The non-contact requirements are provided as described in the STCA for full-time teachers, part-time teachers and those with permanent MUs.
- The school will provide non-contact time for HoLAs/mentors responsible for beginning teachers as described in the STCA and will endeavour to provide one additional hour per MU for each permanent MU above the third (for those with more than three MUs)
- In special circumstances and where a genuine reason exists, teachers may be asked to temporarily forego their minimum entitlement to non-contacts. These would be in times of emergency when no day reliever can be found and teachers holding more than the minimum non-contacts are unavailable. Situations where teachers volunteer to cover for their colleagues whilst on leave for "non-contract" reasons are not included.
- Where teachers are requested to work hours in excess of those described in the contract, every attempt will be made to redress the situation at another point in the school year.
- In allocating classes to teachers, the principal will use reasonable endeavour to achieve, for each teacher who has two or more classes, an average class size of 26 students.
- To allow for a settling down period, to cater for new student enrolments and student option changes, the average class size for teachers will initially be based on 1st March numbers.
- Where a teacher has an average class size that exceeds the 26 student threshold, then an agreed (between the teacher and principal) compensatory mechanism will be provided that may include provision of extra non-contact time or reduction of other duties. Such compensation will not include monetary compensation.
